ASSOCIATION FOR  
HIGH TECHNOLOGY  
DISTRIBUTION **AHTD**

As one of the largest 80/20 distributors in the country, Air Inc supports the 80/20 product line in several different ways. We offer free design assistance & CAD services as well as outside Technical Sales Representatives and Engineers who can visit your site to review your design requirements. Air Inc also has a dedicated Product Specialist who is available to meet at your facility to review any requirements as well as show the 80/20 gurney which displays all of the profiles available (fractional & metric), the different fastening techniques, the standard panel materials, accessories, etc.... Our value added department provides the option of receiving your 80/20 project delivered fully assembled.

*Let our 80/20 Team bring your project from start to finish.*

*Utilize 80/20s Free Tagging Service. Air Inc will supply you with Tagged drawings of your assembly and each component in the kit will come in tagged for ease in the assembly process.*

*Let our Assembly Specialists deliver a turnkey solution.*
