## Using this Catalog

1. Silver solder joints are typical on all fabricated Memco fittings. We do not use soft solder joints on any of our products. The solder we use complies with FDA, NSF, and medical grades Class VT leadfree cadmium-free solder. Our solder meets the directive 2002/96/EC on waste electrical and electronic equipment (WEEE) and directive 2002/95/EC on the restricted use of certain hazardous substances in electrical and electronic equipment (ROHS).
2. The fittings in this catalog are shown at actual size for quick visual reference.

## 3. Product availability:

Brass... Stainless... Electroless Nickel Plated... Aluminum All products are available in brass directly from inventory. Products are available in stainless steel but may not be carried in stock at the time of your order. Electroless nickel plating is done on a per order basis.
4. O'Ring material availability: Standard - Buna N Optional - EPDM, Viton, Silicone \& Teflon encapsulated silicone

## 5. How to Order

Part numbers are listed in rows below product drawings. Line numbers for each row are used to make product cross-referencing easy. (The price list also references line numbers)
A. For Brass items: use part number shown.

## B1

Example: B1 (See line 17, page 5)
B. For stainless steel: use part \# plus suffix " $\mathrm{S} / \mathrm{S}$ "

Example: B1 S/S
C. For Electroless Nickel plate: Part \# plus suffix "N/P"

Example: B1 N/P
C. For Aluminum: Part \# plus suffix "AL"
and specify clear or color anodized
Example: B1 AL Clear

## 6. Developing Part Numbers

Use the convenient table below to select the barb numbers (sizes) corresponding to the internal diameters of the plastic tubing being used.

| Branch <br> Barb \# | Tubing <br> I.D. | Hole <br> Thru |
| :--- | :--- | :--- |
| 045 | $3 / 64$ | .043 |
| 1 | $1 / 16$ | .055 |
| 2 | $.078(2 \mathrm{~mm})$ | .059 |
| $21 / 2$ | $3 / 32$ | .081 |
| 3 | $1 / 8$ | .089 |
| $31 / 2$ | $5 / 32(4 \mathrm{~mm})$ | .104 |
| 4 | .170 | .125 |
| 5 | $3 / 16$ | .140 |
| $51 / 2$ | $7 / 32$ | .156 |
| 6 | $1 / 4$ | .177 |
| 7 | $5 / 16(8 \mathrm{~mm})$ | .250 |
| 8 | $3 / 8$ | .290 |
| 10 | $1 / 2$ | .391 |

Part numbers are written with male thread first - female thread indicated second.

Example: 1/4 BSPT to 1/8 (F)
(Line \# 94, Page 23)
Branch numbers indicate barb sizes. First number designates the branch at the 9:00 O'clock position in the drawing. The largest branch is

called out first. Other branch numbers follow in a clockwise direction.

Example: RT6-3-4 (Line \# 7, Page 2)
MEM-CO Model Designations are coded as follows:

| B | $=$ |  | Straight male thr'd to tube |
| :---: | :--- | :--- | :--- |
| C | $=$ |  | coupling, tube to tube |
| B | $=$ | thread to tube |  |
| L | $=$ | elbow, barbs at $90^{\circ}$ |  |
| T | $=$ | tee/ $(-3)=(3$ way tee $)$ |  |
| T90 | $=$ | branches at $90^{\circ}$ |  |
| X | $=$ | 4 way cross |  |
| R | $=$ | reducer |  |
| RB | $=$ | reducer bushing |  |
| RC | $=$ | reducer coupling |  |
| RT | $=$ | reducer tee |  |
| RX | $=$ | reducer cross |  |
| A | $=$ | adjustable |  |
| BK | $=$ | bulkhead |  |
| F | $=$ | female thread |  |
| HN | $=$ | hex nipple |  |
| IRM | $=$ | in-line reducer manifold |  |
| M | $=$ | manifold |  |
| SW | $=$ | swivel |  |
| V | $=$ | outlets at $60^{\circ}$ |  |

## 7. Orifice Fittings

Many of our small brass and stainless fittings such as $\mathrm{C} 1, \mathrm{C} 3, \mathrm{~B} 1, \mathrm{~B} 2, \mathrm{~T} 1$, T2, etc., are available as orifice fittings. In the case of Tee's, the branch and/or one end of the run may be an orifice. A cross can have as many as three orifices.

See page 24 for C Series orifice fittings.
The general dimensions in this catalog are subject to change without notice

## 1/4 Male Pipe Thread to Tube

## 1/4 Male Pipe Straight Manifolds

Part Numbering Example
\#1 Barb P/N
-1/4 B1 x 2

- 1/4 B1 x 3
- 1/4 B1 x 4
- 1/4 B1 x 5
- 1/4 B1 x 6 - 1/4 B1 x 7
\#2 Barb P/N
- 1/4 B2 x 2
- $1 / 4$ B2 $\times 3$
-1/4 B2 x 4
-1/4 B2 x 5
-1/4 B2 x 6
- $1 / 4$ B2 x 7

Top View
Top View

$451 / 4 \mathrm{~B} 2 \times 2$ Also available with up to seven \#1 or \#2 barbs as listed in part numbers above $1 / 4 \mathrm{~B} 3 \times 2$

Elbows: 1/4 NPT Male to Tube

$1 \leftarrow 5 / 8 \rightarrow 1$

L-Tees: 1/4 NPT Male to Tube
Note: Available in Reducing L-Tee combinations similar to the example below
